CarLoanUnlimited.com and Automotive Link Privacy Policy

We at CarLoanUnlimited.com and Automotive Link believe in maintaining the upmost levels of trust and transparency with our customers. We do not disclose any nonpublic personal information about our patrons to anyone. Nonpublic personal information includes any information about you that you or someone else has provided to us that is not publicly available.

Encrypted Data Transmission
This Web site secures your private information using a VeriSign SSL Certificate. Information exchanged with any address beginning with "https" is encrypted using SSL before it is transmitted.

Google Analytics & Cookies
CarLoanUnlimited.com and Automotive Link employs the use of Google Analytics Advertising features, which relies on the use of cookies and log files.

About Cookies
A cookie is a small text file containing information that a website stores on your computer's hard disk so the site can remember something about you at a later time. Cookies can make a website more useful by allowing the site to personalize information for visitors. The use of cookies is an industry standard, and many major websites use them to provide useful features for their customers.

About Log Files
The data Google Analytics collects on our behalf may include search engine referral, affiliate referrals, traffic driven by banner ads or other online promotions, how visitors navigate around the site, and the most popular pages. We also collect certain technical information, such as the browser version and operating system. Google Analytics collects only anonymous, aggregate statistics. For example, we do not tie a specific visit to a specific IP address and we do not correlate this tracking with personally identifiable information.

You are welcome to block Google Analytics from utilizing these tools during your time on our site. Be aware that this may limit the functionality of some of the website's features

Sharing Financial Data
As a Buy Here, Pay Here dealership, we *do not* share any of your financial information with third-party companies. We also employ the use of SSL (Secure Sockets Layer), which provides additional layers of secure encryption to protect your information.
